# 5GWh energy storage equipment in Auckland New Zealand

Will New Zealand invest in battery energy storage systems?

The Electricity Authority Te Mana Hiko has published a draft two-year roadmap that sets out our work to support investment in battery energy storage systems (BESS). BESS will become increasingly important in the future as New Zealand's power system relies on more intermittent and variable generation. Work set out in the roadmap includes:

Is New Zealand's first large-scale grid battery storage system complete?

Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakaka Battery Energy Storage System (BESS) being officially opened in a ceremony later today.

What is the first Renewable Project in New Zealand?

01 JUL 2024 Contact's first renewable project in Auckland to start immediately. Tesla selected as battery energy storage system supplier, the first Megapack 2 XL project in New Zealand. The battery system will discharge stored energy at a split second to significantly improve security of energy supply to New Zealanders.

What is the Glenbrook battery energy storage system (BESS) project?

The Glenbrook Battery Energy Storage System (BESS) project is tackling Aotearoa New Zealand's electricity capacity and supply quality challenges in South Auckland.

Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakaka Battery Energy Storage System being officially ...

New Zealand's First Utility Scale Battery Energy Storage System (BESS) Gains Traction WEL Networks and Infratec are pleased to announce that they have entered into major contracts for ...

Contact's first renewable project in Auckland to start immediately. Tesla selected as battery energy storage system supplier, the first Megapack 2 XL project in New Zealand. The ...

New Zealand aims to transition to renewable energy, and battery storage plays a vital role in this effort by enhancing grid stability and integrating intermittent renewable sources like wind and ...

The Glenbrook Battery Energy Storage System (BESS) project is tackling Aotearoa New Zealand's electricity capacity and supply quality challenges in South Auckland. By boosting ...

Explore our range of modular & scalable industrial battery energy storage solutions designed for conventional & renewable energy storage. Bess for hire across NZ - enquire today!

Electric power distribution company WEL Networks and developer Infratec have launched their grid-connected battery energy storage system (BESS) in New Zealand. The two ...
