## Add 20 000 to upgrade the battery cabinet

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet. See Figure 2 and Figure 3 for line-up-and-match configuration views. Contains two or three battery strings to be used with the 93E 30 kVA UPS.

Can a battery cabinet be used with a ups?

The battery cabinet frame is not referenced to the DC circuit. Each battery cabinet has its own overcurrent protection device. External battery cabinets can be used in combination with a UPS containing internal batteries. Internal battery strings are to be connected by an authorized Eaton Customer Service Engineer.

What is a zinc five battery cabinet?

ZincFive's BC Series Battery Cabinets, while housing NiZn batteries with all of their associated benefits, adapt the lead-acid charging system to the needs of the nickel-zinc battery. The battery cabinets' intelligent charging & monitoring system emulates the profile of lead-acid batteries to the UPS.

What is a battery cabinet?

Battery cabinet that includes Lithium-ion batteries, Battery Management System (BMS), switchgear, power supply, and communication interface. Reduces the battery room size and increases tolerance to a wider operating temperature range, which allows you to decrease the capacity of the cooling solution.
