
Boston Energy Storage Project Branch

How much energy storage does Massachusetts have?

The act requires all electric distribution companies (EDCs) to report annually on energy storage deployment within their territories no later than February 15 each year. It was reported last year that Massachusetts had a cumulative storage capacity of 569MWh, with an additional 8,806 MWh in the development pipeline.

Is VHB leading a transmission-scale energy storage project?

VHB is leading permitting for the transmission-scale energy storage project. Flatiron Energy recently filed a Project Notification Form for "Project Lite Brite," a 200-megawatt battery energy storage system (BESS) facility located in Brighton, Massachusetts, initiating Article 80 review with the City of Boston.

How much storage capacity does Massachusetts have?

It was reported last year that Massachusetts had a cumulative storage capacity of 569MWh, with an additional 8,806 MWh in the development pipeline. Plus Power's 150MW/300MWh Cranberry Point BESS located in the Town of Carver is expected to make up a large proportion of the 1GWh total, with commercial operations scheduled for summer this year.

Why should we invest in energy storage technology?

Advancements in Energy Technology: This project represents a significant investment in cutting-edge energy storage technology. It could lead to advancements and cost reductions in battery technology, making energy storage more accessible and efficient for other regions and projects.

This marks the completion and operation of the largest grid-forming energy storage station in China. The photo shows the energy storage station supporting the Ningdong ...

Detailed info and reviews on 35 top Energy companies and startups in Boston in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

Discover how ESA is advancing energy storage with its Sturbridge and Carpenter Hill projects, enhancing reliability and supporting renewable goals in Massachusetts.

Plus Power has commenced operations at its Cranberry Point energy storage facility in Carver, Massachusetts, US. The facility is claimed to be the largest utility-scale ...

A render of the building that would house the BESS project. Image: Flatiron Energy / System operator ISO New England has given the go-ahead for a 300MW/1,200MWh indoor ...

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future ...

Flatiron Energy has filed detailed plans for a proposed two-story battery energy storage facility at 35 Electric Ave in Brighton. The approximately 62,000 square feet project is ...
