
Bucharest mobile energy storage power manufacturer

Is battery energy storage a pillar of Romania's energy transition?

Recent updates about investments in battery energy storage systems (BESS) in Romania indicate the technology is becoming another pillar of the country's energy transition alongside wind power. For several years now, photovoltaics, and prosumers in particular - including municipal authorities, have dominated the scene.

How long will a battery energy storage system last in Romania?

It is about to start building the BESS in Scornicesti in Ilt county, west of Bucharest. R.Power is planning to complete it in a year. The battery energy storage system would have a duration of two hours, translating to 254 MWh in capacity. The project received funding from the National Recovery and Resilience Plan (NRRP or, in Romanian, PNRR).

Which companies are combining Bess with solar power in Romania?

In an accelerating investment wave, companies in Romania are combining BESS with solar power, hydropower and wind power, or building standalone energy storage facilities. The group includes R.Power, Hidroelectrica, Engie and more big names.

Will Romania install a battery storage system on the Danube?

State-owned Hidroelectrica, the largest electricity producer in Romania, wants to install a battery storage system at Iron Gate 2 (Portile de Fier 2) on the Danube. Located on the border with Serbia, it is the second-largest hydroelectric plant in the country, at 252 MW in nominal capacity.

Romanian engineering group Simtel has signed a contract to design and build a 196.4 MWh battery energy storage system (BESS) for Energy Capital Group. The agreement, ...

You know, when we talk about Europe's energy revolution, most people immediately think of Germany or Scandinavia. But here's the twist - Romania's battery storage sector grew 240% ...

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania. ...

PRIME is a prominent manufacturer of advanced energy storage solutions, focusing on Lithium-ion batteries and customized battery packs. Their commitment to innovative technologies and ...

Through this investment, Romania is taking a significant step towards strengthening its energy infrastructure and increasing flexibility in consumption and production. Storage ...
