# Buy link for folding container three-phase purchase bulk purchase

What is bulk buying?

Bulk buying is the practice of purchasing large quantities of goods or services to reduce price per unit, streamline operations, and secure supply chain consistency. Buying in bulk can help businesses of all sizes--from startups to enterprise-level operations--enhance inventory control, reduce lead times, and ultimately improve their bottom line.

How can cnstorm help with bulk buying?

Choosing the right supplier is the key to successful bulk buying. Factors you need to consider include product quality, shipping methods, and the convenience of the entire purchasing process. As a professional purchasing agent platform, CNstorm can provide you with one-stop services from commodity procurement to global express delivery.

What is the difference between wholesale and bulk buying?

While both consist of buying in large quantities, wholesale is geared toward retailers and resellers, while bulk buying is ideal for organizations looking to save money on regular-use items. With bulk buying, a construction firm can buy a large quantity of safety helmets to equip job sites across multiple states.
