
Canberra Home solar container energy storage system Production

Will big battery power a third of Canberra households in 2025?

Canberra Times: ground breaking ceremony, plugging in profits from a big battery. ITP Renewables was engaged by Eku Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system, which will begin powering one-third of Canberra households from 2025.

What is the Big Canberra battery?

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future. For technical specifications of our work on the Big Canberra Battery, or to discuss engaging us on similarly ambitious battery storage projects, please contact our team.

Does Solahart Canberra install batteries?

Solahart Canberra is a Certified Installer of Tesla Powerwall 2, SolarEdge, GoodWe and BYD Batteries. All are available through Solahart Canberra. How much energy does a battery store? The storage capacity of batteries vary by model.

Does Solahart Canberra sell EV chargers?

Solahart Canberra sells and installs EV chargers across Canberra. Our range includes Tesla, GoodWe and SolarEDGE electric vehicle chargers. Get in touch for more information. Batteries allow you to store your excess solar energy and use it when you need instead of sending it to the grid.
