What is a winch system?

Winch systems are devices used to wind a cable or a rope in or out; the resulting tension pulls an object. The winch drum can be powered manually, pneumatically, electrically, or hydraulically. At OUCO, we supply powerful hydraulic winch systems, as well as other winch types.

What is the ouco winch system?

With the OUCO winch system, you can complete more complex winch operations, you can control the speed change, emergency braking, and guide the direction of the rope. The winch system can be used in combination with other equipment or operated independently. And, in addition to electric and hydraulic options, we also offer many customised options.
