
Dakar BESS Communication BESS Power Station

Where is a Bess project being built in Senegal?

The BESS is to be built at the Tobène substation in Thies, Senegal. It will be operated by Infinity Power's 158.7 MW wind farm in Senegal, Parc Eolien Taiba N'Diaye (PETN)

Will Bess provide frequency response services in West Africa?

The project is the first BESS to provide frequency response services in West Africa, the companies claimed. Image: Africa REN. Finance institutions FMO and PIDG will finance a first battery storage project in Senegal dedicated to frequency regulation, the first in the region, project developer Africa REN claimed.

What is the Bess project?

The four-hour BESS project, which will have a power rating of 40MW and an energy storage capacity of 160MWh, will be built at the Tobène substation in Thies and operated in tandem with Infinity Power's 158.7MW wind farm, the Parc Eolien Taiba N'Diaye (PETN).

What is Bess & how does it work?

It considers the potential contribution from BESS to the power system, as well as opportunities, barriers or challenges and recommendations to achieve an optimal contribution to the continental power system. BESS is another form of energy storage, similar to the more familiar pumped storage hydropower.
