
Discount on 150-foot energy storage containers for construction sites

Can a shipping container be used for construction?

Shipping containers can be transformed into office spaces, salesrooms, and break rooms for construction companies, suiting their needs beyond general storage. Once a construction project is complete, a freshly purchased shipping container can be easily transported between sites on a tilt-bed or flatbed trailer.

Why should you choose a modular energy storage container?

Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities. The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kwh, making our energy storage container perfect for meeting growing energy demands.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

Can you buy construction containers from Boxhub?

Yes, you can buy construction containers from Boxhub. You can make the purchase in a call or a click, without managing contracts or scheduling pickups.
