# Does Indonesia have cylindrical lithium batteries

How big is the Indonesia lithium-ion battery market?

The Indonesia lithium-ion battery market size reached USD 697.07 Million in 2024. Looking forward, IMARC Group expects the market to reach USD 1,802.02 Million by 2033, exhibiting a growth rate (CAGR) of 11.13% during 2025-2033.

What factors contribute to Indonesia's lithium-ion battery market share?

Growing electric vehicle adoption, government support for downstream nickel processing, abundant raw materials like nickel and cobalt, rising energy storage needs, foreign investment, and local manufacturing expansion are some of the factors contributing to the Indonesia lithium-ion battery market share.

Does Indonesia need a battery factory?

The founder of the National Battery Research Institute (NBRI), Evvy Kartini, when contacted by Kompas, Thursday (7/8/2025), said that the lithium needs that Indonesia needs to import depend on the production capacity of the battery factory that will be established.

How can Indonesia create a lithium battery ecosystem?

**Lithium Processing:** Converting raw lithium ore into usable battery-grade lithium requires processing facilities. Investments are pouring in to establish these facilities within Indonesia.  
**Battery Manufacturing:** The ultimate goal is to create a complete lithium battery ecosystem within Indonesia.

Market Forecast By Product Type (18650 Cylindrical Li-ion Battery, 21700 Cylindrical Li-ion Battery, 26650 Cylindrical Li-ion Battery, 4680 Cylindrical Li-ion Battery), By Technology Type ...

Battery technology is evolving, and global battery supply is not just about nickel. While lithium-nickel-manganese-cobalt chemistries (NMC) deliver high energy density and ...

Jakarta, INTI - In the age of electric vehicles and renewable energy, lithium has become the new black gold. Indonesia, a nation blessed with abundant natural resources, is emerging as a key ...

The cylindrical lithium battery pack market in Indonesia is also forecasted to witness strong growth over the forecast period. The major drivers for this market are the rising demand for e-vehicles, ...

The Indonesia Lithium-Ion Battery Market can be segmented based on several factors: By Product: Indonesia Lithium-Ion Battery Market is segmented by product type into cylindrical ...
