# ETiON Uninterruptible Power Supply

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS) offers emergency power when the source fails. Consequently, Uninterruptible Power Supplies (UPSs) are commonly utilized in critical applications such as data centers, healthcare, and manufacturing. Learn more about the different types of UPS and about Eaton UPS battery runtimes.

What is an Eaton UPS system?

Our Eaton UPS systems can save your sophisticated and critical equipment from abrupt power failure, voltage fluctuations, harmonics, surges, transients or other specific industrial conditions. Industrial uninterruptible power supply systems (UPS Systems) include core technologies to cover industrial equipment.

Does Eaton offer a line interactive uninterruptible power supply?

Eaton can help if you're looking for a line interactive uninterruptible power supply. Our Eaton UPS systems utilise advanced technology that enables the UPS to correct minor power fluctuations, manage voltage regulation, and handle voltage spikes and surge without changing to battery, enhancing overall efficiency.

Why should you choose Eaton industrial UPS?

In large industrial facilities, power failures are highly detrimental for the operational efficiency. Our Eaton industrial UPS systems (Uninterruptible Power Supply) can mitigate such effects with our advanced functionalities and features. These extensive services include extended power back up and protection against several power quality issues.

Our Eaton UPS systems can save your sophisticated and critical equipment from abrupt power failure, voltage fluctuations, harmonics, surges, transients or other specific industrial ...

An uninterruptible power supply or a UPS system is an electrical apparatus that provides emergency power to a load when the input power source or mains power fails. A UPS system ...

3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data ...
