# Eastern European solar container battery BESS Company

What are battery energy storage systems (Bess)?

Battery energy storage systems (BESS) developments are becoming increasingly commonplace in Europe as countries need to store their renewable energy. According to BloombergNEF, Europe is on track to exceed 300 GWh of storage capacity by 2030.

What is the largest battery energy storage system in Eastern Europe?

RAZLOG, Bulgaria-- ( BUSINESS WIRE )--Stationary battery manufacturer Hithium has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of 55MWh.

What does Bess stand for?

Solarpro, a leading technological provider of solutions for the generation and storage of energy in Europe, has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe, with a capacity of 55MWh.

How does a Bess development help a country's energy infrastructure?

BESS developments stabilise a country's energy infrastructure. For instance, Europe's first commercial BESS development, Schwerin Battery Park, in Germany was able to restore power to a grid in the midst of an unexpected blackout.

A container battery energy storage system (BESS)--also known as containerized battery storage--is a pre-assembled, modular solution designed to store and deliver electrical energy
