# Energy storage in Krakow Poland participates in frequency regulation

What is Poland's energy storage subsidy program?

Following a public consultation launched in July 2024, the Polish Ministry of Climate and Environment has finalized its energy storage subsidy program which aims to support the deployment of more than 5 GWh of energy storage in the country. The new regulation was published in the Journal of Laws of the Republic of Poland on March 7.

Should US companies offer battery energy storage systems in Poland?

U.S. Commercial Service recommends that U.S. companies offering battery energy storage systems take a hard look at the Polish market because there will be opportunities for U.S. companies to propose their solutions for many years to come. For more information, please contact Commercial Service Poland at [office.warsaw@trade.gov](mailto:office.warsaw@trade.gov).

Is energy storage a good investment in Poland?

In Poland, interest in energy storage investment has been evident for some time. Last year's main auction of the power market, with capacity delivery for 2029, further bumped up the capacity of storage projects.

What happened to energy storage in Poland?

The Energy Regulatory Office said in a report last year on electricity storage in Poland that, as a result of the main power market auctions for 2021-2028 and the supplementary auctions for 2012-2025, contracts for energy storage with a total capacity of 9.5 GW were concluded.

As renewable energy sources (RESs) increasingly penetrate modern power systems, energy storage systems (ESSs) are crucial for enhancing grid flexibility, reducing ...

The growing popularity of energy storage in multifamily housing in Poland, new regulations affecting the safety and efficiency of energy technology installations.

The panel discussion at the Energy Storage Central and Eastern Europe (CEE) 2025. Image: Solar Media. Although the government in Poland has taken steps to open up its ...

Poland's energy storage landscape has become a battleground between ambitious climate targets and practical grid economics. With 9GW of battery projects already permitted but only 10MW ...

Can large-scale battery energy storage systems participate in system frequency regulation? In the end, a control framework for large-scale battery energy storage systems jointly with thermal ...

Poland's updated energy storage regulation raises permit-free thresholds and streamlines approval for small-scale battery systems, supporting wider market adoption.
