
Financing for the Fiji Solar Container Ultra-Large Capacity Project

Will Fiji be able to source 100 percent of its energy?

Suva, Fiji, October 21, 2020- A landmark agreement between Energy Fiji Limited (EFL) and IFC to deliver the largest solar project of its kind in the Pacific to date has been hailed a transformative step that will take the island nation closer to its goal of sourcing 100 percent of its energy needs from renewable sources.

How much money does the Fiji Development Bank grant?

The FDB is also working towards achieving a higher level of accreditation that will grant USD \$50 million per project. The Green Climate Fund (GCF) has approved the Fiji Development Bank's (FDB) USD 5 million project funding to develop an innovative solar agrophotovoltaic and a battery storage system in Ovalau.

How many solar PV installations are there in Fiji?

Around 150 rooftop solar PV installations are also operating in Fiji, accounting for about 580 MWh per year, although the majority are very small projects. EFL expects generation to increase to 1,000 MWh in the coming years.

What is a green energy circuit for Fiji?

A well-designed transmission grid will also take into consideration the risk of VRE on the operational stability of the system (See Figure 4.1). The proposed Green Energy Circuit for Fiji will upgrade and improve climate resilience of the existing transmission network to enable evacuation of existing and planned solar, hydropower, and wind.
