
High quality 36v solar inverter

What is a 36 volt inverter?

Looking for a 36 V inverter is often harder than finding a 12 V or 24V inverter since they are less common. Although not used as often, they still serve important roles in mid-range power applications. All of these higher-voltage systems should be used when powering equipment that draws over 3,000 W. Higher voltage is important for several reasons.

What is a 3000W pure sine wave inverter?

The 3000W Pure Sine Wave Inverter (3000W36V) converts 36V DC power to efficient 110V/120V AC electricity. It is a good choice for cars, solar, and off-grid setups. The continuous output of 3000W and a surge capacity of 6000W provides great performance for everyday appliances and high demand start-up devices.
