
How long is the warranty for home solar lights

How long does a Vivint Solar Panel warranty last?

A Vivint Solar Panel comes with a basic warranty that covers the solar panel for 25 years against damage and product inefficiencies. Additionally, there is a warranty of 10 years for the inverter.

What is a solar panel product warranty?

Also known as a materials warranty, a solar panel product warranty covers the integrity of the equipment itself. If any of your solar panels have a defect or mechanical issue, if they break or fracture, or experience unreasonable wear and tear, that's when your product warranty comes into play.

Is a solar panel warranty worth the investment?

When it comes to solar panel warranties, the product warranty is the reliable one. Many industry insiders consider the performance warranty to be practically worthless, as it is easy for manufacturers to avoid fulfilling it. Fear not, there is a solar panel warranty that you can depend on: the product warranty.

How long do solar panels last?

Nowadays, most manufacturers offer at least 10 years of coverage under a product warranty, while some premium options have 25 or even 30+ years of protection against product defects. What happens if your module is no longer available? It's unlikely, but let's say a solar panel breaks after nine years. Things happen.
