
Huawei Hungary Energy Storage Project

Where is the largest battery energy storage system in Hungary?

Image: MET Group. IPP MET Group has put a 40M/80MWh BESS in Hungary into commercial operation, deployed using technology from Huawei. The 2-hour battery energy storage system (BESS) is the largest in Hungary, Switzerland-headquartered MET Group said, deployed at its Dunamenti thermal power plant in Széchalombatta, near Budapest.

Where is Hungary's largest battery located?

MET Group has switched on Hungary's largest battery, a 40 MW/80 MWh system, at the site of a power station near Budapest. Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Széchalombatta, located close to Budapest.

How much power does met have in Hungary?

The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh. This project significantly expands MET Group's energy storage portfolio in Hungary. It joins a smaller 4 MW / 8 MWh demonstrator BESS, which utilizes Tesla Megapack 2 batteries and was installed at the same site in 2022.

How much does a new energy storage project cost in Hungary?

The contract was signed in February, with MAVIR Ltd. as the investor. According to portfolio.hu, the project is estimated to cost HUF 8.5 billion (EUR 21 million), with a capacity of 60 MWh. Currently, Hungary's entire energy storage capacity stands at 30 MW.
