# Kuala Lumpur solar Water Pump Inverter Purchase

Who makes a solar pump system in Malaysia?

This solar pump system was proudly supplied by Agrosmart, one of Malaysia's leading providers of smart agricultural solutions. Known for its innovation in renewable energy and farming technology, Agrosmart delivers efficient, reliable, and eco-friendly systems that address the water management challenges faced by today's growers.

Where can I buy a water pump in Malaysia?

Your Trusted Water Pump Supplier in Kuala Lumpur -- Tsunami Pump's Authorized Dealers Across Malaysia. Choose us for unparalleled quality, your foremost water pump manufacturer in Malaysia! Tsunami Pump has established a robust network of over 150 authorized dealers, ensuring convenient access to genuine products and top-tier services.

How does a solar water pump work?

The solar water pump's inverter converts the DC electric current output generated by the photovoltaic system into AC. The AC electric current powers the pump and propels water from the source to the intended destination. It is also crucial to note that the inverters regulate the electricity output frequency and voltage instantaneously.

What are the different types of inverter pump models?

We aim to deliver high-quality products so that more individuals can access better standard drinking water at home and offices. Our available inverter pump models are the Monster GN, Monster Junior and Neptune GN. This is a high-speed water pump suitable for business and heavy home users.
