Will Malaysian Sheet Glass float line be converted to TCO glass?

An existing float line at the Johor Bahru factory of Malaysian Sheet Glass, a member of NSG Group, has been converted to begin producing TCO glass from December 2023. The investment is to support the expansion strategy of First Solar, an American manufacturer of solar panels, which has a long-standing strategic partnership with NSG Group.

When will TCO glass be made in Malaysia?

NSG Group is pleased to announce the warm up of a newly converted TCO (transparent conductive oxide) facility in Malaysia. In this investment, an existing float line at the Johor Bahru factory of Malaysian Sheet Glass SDN BHD, a member of NSG Group, has been converted to begin producing TCO glass from December 2023.

Where is first solar glass made?

In order to meet the growing global demand for solar panels manufactured by First Solar, NSG Group started operation of the second dedicated float line for solar glass in Vietnam in January 2020, and a new plant in Luckey, Ohio, USA has been operating since November 2020. The glass produced in these plants is exclusively supplied to First Solar.

Will NSG invest in TCO coated glass in Malaysia?

NSG Group is pleased to announce the plan to invest in additional production capacity of TCO (transparent conductive oxide) coated glass in Malaysia to support the growing solar market.

To meet the growing global demand for solar panels manufactured by First Solar, NSG Group started operation of the second dedicated float line for solar glass in Vietnam in January 2020.
