# New Delhi Power Supply Solar System Production

How much solar power will Delhi have by 2027?

The Delhi government has announced plans to install 4,500 MW of solar capacity, including 750 MW of rooftop solar within the state and around 3,750 MW of utility-scale solar outside the state by 2027 under the new Solar Energy Policy 2023.

Is New Delhi a suitable location for solar PV power generation?

New Delhi, National Capital Territory of Delhi, India (latitude: 28.6328, longitude: 77.2204) is a highly suitable location for solar PV power generation due to its position within the Northern Subtropics region and favorable climate conditions.

How much solar power does New Delhi generate a year?

Seasonal solar PV output for Latitude: 28.6328, Longitude: 77.2204 (New Delhi, India), based on our analysis of 8760 hourly intervals of solar and meteorological data (one whole year) retrieved for that set of coordinates/location from NASA POWER (The Prediction of Worldwide Energy Resources) API: Average 5.67 kWh/day in Summer.

What is solar energy policy in Delhi?

This policy will apply to any solar energy generating system with a capacity of 1 kWp or more. It applies to all electricity consumers and entities that set up or operate solar power projects in Delhi.

Apart from solar, WtE and EVs, Delhi is exploring clean energy options such as battery energy storage systems (BESS), hybrid and hydro power. In April 2025, IndiGrid ...

New Delhi, National Capital Territory of Delhi, India (latitude: 28.6328, longitude: 77.2204) is a highly suitable location for solar PV power generation due to its position within the Northern ...

The Delhi government has announced plans to install 4,500 MW of solar capacity, including 750 MW of rooftop solar within the state and around 3,750 MW of utility-scale solar ...

With the mercury rising in India's capital, New Delhi, electricity demand is touching new heights. The state government expects peak demand to touch 8,000 megawatts (MW) by ...

The global demand for power is skyrocketing, and renewable energy sources are gaining momentum as a low-pollution solution to meet this demand. In particular, solar energy ...

Explore Delhi's 2025 solar energy statistics--installed capacity, rooftop growth, annual generation, challenges, and insights for consumers and developers.

New Delhi, June 10, 2025: The Energy and Resources Institute (TERI) released a landmark report titled, 'Reassessment of Solar Potential in India: A Macro-level Study', which aims to offer a ...
