# New Zealand Telecom BESS Power Station Types

Where is the largest thermal power station in New Zealand?

The Huntly Power Station, New Zealand's largest thermal power station. Image: Saft. Saft, a subsidiary of French energy giant TotalEnergies, will provide Genesis Energy in New Zealand with a 100MW/200MWh utility-scale battery energy storage system (BESS).

Will New Zealand invest in battery energy storage systems?

The Electricity Authority Te Mana Hiko has published a draft two-year roadmap that sets out our work to support investment in battery energy storage systems (BESS). BESS will become increasingly important in the future as New Zealand's power system relies on more intermittent and variable generation. Work set out in the roadmap includes:

Where will Bess be installed in New Zealand?

Confirmed yesterday (19 September), the 2-hour duration BESS will be installed at Huntly Power Station on the country's North Island, owned by Genesis, a listed New Zealand generation, wholesale, and retail energy company.

What types of power systems are used in New Zealand?

generators, IL and BESSs. 8 Voltage management practices New Zealand's power system is a typical centralised power system, in that its main load centres are located some distance from areas of significant generation. Generation is built near to fuel sources, and electrical power is delivered to load

Solutions / Battery Energy Storage Systems (BESS) Battery Energy Storage Systems (BESS) are becoming a fundamental part of the network and transmission infrastructure globally. BESS ...
