# Nordic Valley Power Energy Storage Device Manufacturer

What is the largest battery energy storage project in the Nordics?

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower.

Is there a future battery storage park in Finland?

Computer-generated picture of the future battery storage park in Finland. SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics.

What is the Nordic battery collaboration?

In the Nordic region, Finland, Norway and Sweden are combining their collective strengths in the battery value chain through the Nordic Battery Collaboration. As a battery region, the Nordics have become a notable actor in the broader European battery market.

How much storage capacity does Seb Nordic energy have?

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026.

Why the Nordics Are Betting Big on Supercapacitors a wind farm in Norway generates excess energy during a stormy night, but instead of wasting it, the power gets ...

Richard Gavel, Portfolio Manager at SEB Nordic Energy, noted that the new battery storage project diversifies the fund's assets and accelerates the transition to sustainable ...

Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. The company bridges the gap between battery cell ...

Innovative Finnish design and manufacturing We take pride in our Finnish heritage. Our battery energy storage solutions are designed, developed, and manufactured in Finland. From ...

Whether for EVs or energy storage, Norway has always had ideal conditions for battery growth: renewable energy in the form of hydropower, strong government financial ...

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will ...

BOS Power and HiTHIUM sign a 3GWh battery energy storage agreement to support renewable projects across the Nordic region, marking a significant step in sustainable ...
