
Power storage systems factory in Vietnam

Where are battery storage systems made?

In May 2025, the company commenced production at a new manufacturing facility in Goodyear, Arizona, advancing its strategy to build a US domestic supply chain for grid-scale battery storage systems. The facility is equipped to produce steel enclosures and battery management system (BMS) hardware for its utility-scale energy storage products.

What is a GWh energy storage factory?

This is no ordinary factory--it is an automated energy storage facility with an annual production capacity of up to 35 GWh. For the energy storage industry, this move represents both a new milestone in the strategic partnership between the two companies and a significant shift in the global energy storage manufacturing landscape.

What is a fluence energy storage factory?

More importantly, it employs a fully automated production process. Fluence officially refers to it as a "future-oriented factory." For the energy storage industry, increased automation not only reduces reliance on manual labor but also directly enhances consistency, safety, and product yield.

At the same time, the demand for battery energy storage systems (BESSs) is accelerating, driven by Vietnam's abundant renewable energy (RE) potential, particularly in ...

Recently, four companies--Zoolnasm Energy, BYD, Samsung SDI, and Kenano Clean Energy--have successively won overseas energy storage orders. The technical routes ...

The state-of-the-art facility will produce Fluence's energy storage solutions, including Gridstack Pro(TM) and Smartstack(TM), with a significant projected annual manufacturing ...

Fluence, a global energy storage technology provider, and ACE Engineering in Vietnam recently announced a partnership to build a fully automated battery energy storage ...

Fluence & ACE open a 35GWh automated battery storage factory in Vietnam. The plant will produce Gridstack Pro & Smartstack systems to meet surging global demand for grid-scale ...

Fluence and ACE Engineering have launched a state-of-the-art automated facility in Vietnam with a 35 GWh annual capacity to boost production of advanced energy storage ...

ARLINGTON, Va., Aug. 20, 2025 (GLOBE NEWSWIRE) -- Fluence Energy, Inc. ("Fluence") (NASDAQ: FLNC), a global market leader delivering intelligent energy storage, services, and ...

The manufacturing plant will produce Fluence's Smartstack (pictured) and Gridstack Pro BESS solutions. Image: Fluence. Global energy storage technology and energy ...

In May 2025, the company commenced production at a new manufacturing facility in Goodyear, Arizona, advancing its strategy to build a US domestic supply chain for grid-scale ...

Fluence Energy, Inc., a global leader in intelligent energy storage solutions, has partnered with ACE Engineering to inaugurate a state-of-the-art automated production facility ...

Recently, big news emerged in the energy storage sector: Fluence and ACE Engineering's new factory in Bac Giang Province, Vietnam, has officially commenced ...
