
Price of n-type solar panels

How much does a PV module cost in China?

According to price analysis firm InfoLink: "Since March, the spot price of n-type modules in China has soared from RMB0.7/W to RMB0.73/W. Quotes from leading manufacturers are approaching the RMB0.75/W mark." The results of the China Datang Group's 2025-2026 PV module framework. Image: Datang.

How much will PV modules cost in 2025?

On 11 March 2025, the results of the China Datang Group's 2025-2026 PV module framework purchase tender were announced, with the spot price of n-type modules increasing from RMB0.7/W (US\$0.097/W) to RMB0.73/W (US\$0.1/W), and some modules priced as high as RMB0.75/W (US\$0.11/W).

How much does N granular silicon cost?

According to data from the Silicon Industry Branch on 12 March, the transaction price for n-type recycled material this week was RMB39,000-46,000/ton, with an average of RMB41,700/ton. The transaction price for n-type granular silicon was RMB38,000-41,000/ton, with an average of RMB39,000/ton.

How much does n-type dense polysilicon cost?

According to the latest pricing data from the Silicon Industry Branch, released on 9 July, the transaction price range for n-type dense polysilicon has oscillated between RMB34,000-38,000/ton (US\$4,741-5,299/ton).

Its price fluctuations directly affect the production cost of solar panels. The decline in silicon material prices will effectively control the production costs of solar panels and bring ...
