Shop moulded case circuit breakers at ARB. Ensure the safety and efficiency of your electrical systems with durable, high-performance breakers.

Are Brite Lighting circuit breakers & components safe?

Ensure safety with Brite Lighting's circuit breakers & components--designed for efficient fault protection and reliable performance in any electrical system.

What is a circuit breaker used for?

The device is designed to protect against electric shock during human contact with the surface of the equipment or its parts that conduct current. What characteristics should I look for when choosing a circuit breaker?

How to choose a circuit breaker?

The circuit breaker is selected based on the values of the total leakage current and the rated current. The best electric machines are those in which the maximum switching capacity for devices in the group is 6 kA. The same indicator for terminal devices should be at least 3 kA.

Ensure safety with Brite Lighting's circuit breakers & components--designed for efficient fault protection and reliable performance in any electrical system.
