
Santo Domingo Enterprise Energy Storage Project

What is ST Engineering doing in the Dominican Republic?

Its innovative integration of marine engineering and energy generation received the Plant of the Year accolade from Power Magazine for its pioneering floating combined-cycle gas turbine power barge. ST Engineering's Marine business and Siemens Energy have been awarded a second contract to deliver Estrella del Mar IV in Dominican Republic.

How will a new power plant benefit the Dominican Republic?

The new power plant will be based on its predecessor, the Estrella del Mar III. When completed, it will enhance the Dominican Republic's energy infrastructure with greater efficiency, flexibility and sustainability.

Why should you build a power plant in Singapore?

By constructing the plant in Singapore and delivering it as a complete plug-and-play solution, the project reduces both cost and construction time compared to a land-based power facility.

You know how everyone's talking about solar and wind power these days? Well, here's the elephant in the room - renewable energy intermittency. The Santo Domingo Pumped Storage ...

The project will include the installation of an energy storage system of 27.5 MW/110 MWh, the commission said. A day earlier, Vice President Pena opened the La Victoria solar farm, which ...
