
Solar container outdoor power in Rotterdam Netherlands

Will a floating solar park be built in Rotterdam?

Rotterdam, Netherlands (Ports Europe) March 13, 2025 - A consortium headed by Devcap has won the tender for a floating solar park at Port of Rotterdam's De Slufter. De Slufter is a 250-hectare depot located in the southwest section of the Maasvlakte within the Port of Rotterdam. Rijkswaterstaat, the Central Government Real Estate Agency, and...

Who owns a floating solar farm in Rotterdam?

DevCap, as the lead party of consortium Sun Float Power, has won a tender as the operator of a floating solar farm at De Slufter on Rotterdam's Maasvlakte. With the completion of this 96-MWp solar farm, approximately 87,000 MWh can be generated annually, equivalent to the energy consumption of 30,000 households.

What is the Dutch PV portal?

The Dutch PV Portal is a no-profit service provided by Delft University of Technology. Users requesting data en masse from our service quickly deplete the monthly traffic quota we are allotted. This results in temporary error generation and prevents other users from enjoying the content of this service.

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.
