
Solar module equipment export

What are China's solar PV exports?

In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years. In addition, Chinese investments in Malaysia and Viet Nam also made these countries major exporters of PV products, accounting for around 10% and 5% respectively of their trade surpluses since 2017.

How many dumping and import taxes are imposed on solar PV?

Since 2011, the number of antidumping, countervailing and import duties levied against parts of the solar PV supply chain has increased from just 1 import tax to 16 duties and import taxes, with 8 additional policies under consideration. Altogether, these measures cover 15% of global demand outside of China.

How has global solar PV manufacturing capacity changed over the last decade?

Global solar PV manufacturing capacity has increasingly moved from Europe, Japan and the United States to China over the last decade. China has invested over USD 50 billion in new PV supply capacity - ten times more than Europe - and created more than 300 000 manufacturing jobs across the solar PV value chain since 2011.

How has China shaped the global supply and demand of solar PV?

Government policies in China have shaped the global supply, demand and price of solar PV over the last decade. Chinese industrial policies focusing on solar PV as a strategic sector and on growing domestic demand have enabled economies of scale and supported continuous innovation throughout the supply chain.

The export of photovoltaic equipment is a comprehensive process that requires a deep understanding of the market, products and processes. With clear steps and precautions, ...

We provide comprehensive export agency services for photovoltaic and new energy equipment. Our all-in-one solutions, including trade scheme design, export tax rebates, logistics ...

The global solar energy market is thriving in 2025, with China maintaining its leadership as a top exporter of photovoltaic (PV) products. At a recent press conference on ...

As global demand for renewable energy surges, the photovoltaic module export industry has become a cornerstone of international trade. This article explores key market drivers, ...
