# Solar panels installed on rural roofs in Berlin

How many photovoltaic systems are there in Berlin?

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of July 7, 2023, 20,985 systems were in place, with a total installed capacity of around 230 MWp.

Are solar panels mandatory in Berlin?

The set of measures stipulated in the master plan is accompanied by the Berlin solar law. Solar panels have been mandatory since January 1, 2023. The installation and operation of photovoltaic systems have been mandatory since then for new and existing buildings under certain conditions (SenK 2021).

What is solarzentrum Berlin?

To start tapping more into the potential of solar energy, both in the private and the public sector, the SolarZentrum (solar centre) Berlin was opened in May 2019. It is a component of the "Masterplan Solarcity", which works as an independent advisory centre on the topic of solar energy (SolarZentrum Berlin, only in German).

Is solar energy a building block for Berlin's climate protection strategy?

The expansion of solar energy use is emphasised as a particularly important building block in Berlin's climate protection strategy, since, with over 560,000 buildings in Berlin, there are rooftops and house facades aplenty, unlike suitable wind power sites.

This photo taken on Jan. 4, 2024 shows solar panels installed on the roof of a residential house in Berlin, Germany. More than one million new solar systems for generating ...

The EO Solar application shows the solar roof potential and solar roof expansion in Germany at various administrative levels down to buildings. This illustration shows the ...

Impact on Solar Adoption By 2010, the German Rooftop Program had propelled Germany to the forefront of global solar energy, with over 17 GW of installed capacity--more ...

Berlin's mandate for solar installations on new and renovated roofs has spurred rapid rooftop expansion, but the German capital remains far from its 2035 clean energy goal.

Solar roofs will be mandatory in Berlin starting in 2023 The law applies to housing, commercial and industrial buildings Yesterday, the city of Berlin announced that, starting from ...

This compares to 15,000 arrays with 194 megawatts at the start of the mandate in early 2023. Berlin introduced the solar mandate to unlock the city's rooftop solar potential and ...
