
Solar power generation system supplied to Vienna

In the future, the Vienna State Opera will use solar power for its building services, ventilation and corridor lighting. This power will be generated by a 100-kilowatt photovoltaic ...

SolarSK completed a 1.3 MW rooftop solar plant for Technopark Vienna in just 3 months. The project powers refrigeration, production, and 300 electric buses, cutting energy ...

Why should you choose a solar power plant in Vienna? Our solar power plant in Vienna's Liesing provides the optimum environment in the city for species requiring protection. Our citizen solar ...

Vienna Airport has expanded its renewable energy efforts by adding a new four-megawatt photovoltaic (PV) system to serve its energy needs. This addition brings the total ...

Increasing solar generation capacity is a key part of the airport's strategy to meet its goal to be carbon neutral by 2023. Once the new facility is online, onsite energy generation - from eight ...

Vienna has implemented its photovoltaic initiative in record time: The target of 250 megawatt peak (MWp) solar power capacity was reached ten months earlier than planned.
