
Standard container wholesale

What are standard container sizes?

To help you in your research, here is our detailed guide to standard container dimensions. Standard sizes include 8ft containers, 10ft containers, 20ft containers and 40ft containers, but if you prefer to not work in imperial measurements, you can also find shipping container sizes in metric units.

What is a standard container?

Standard containers are also known as general purpose containers. They are closed containers, i.e. they are closed on all sides. A distinction may be drawn between the following types of standard container: In addition, the various types of standard container also differ in dimensions and weight, resulting in a wide range of standard containers.

What are the different types of standard containers?

In addition, the various types of standard container also differ in dimensions and weight, resulting in a wide range of standard containers. Standard containers are mainly used as 20' and 40' containers. Containers with smaller dimensions are very seldom used. Indeed, the trend is towards even longer dimensions, e.g. 45'.
