What is a solar inverter?

A solar inverter is a key component in any solar power system, converting DC electricity from solar panels into AC power used by most appliances and electrical equipment. This transformation is essential, as over 90% of devices worldwide operate on AC.

What are GoodWe solar inverters used for?

GoodWe's inverters are commonly deployed in residential solar + storage systems, emerging markets with unstable grids, and distributed commercial applications. Its hybrid and smart energy solutions offer flexibility for self-consumption, peak shaving, and backup power, helping end-users achieve greater energy independence. 7. SRNE Solar

What is a multi-mode inverter?

Also known as multi-mode inverters, these integrate solar production, battery storage, and sometimes even generator input. They manage energy flow intelligently, enabling backup power, self-consumption, and time-of-use optimization. Best suited for: Homes or businesses using solar plus batteries
