
Sungrow Energy Storage Inverter is the world's first

Who makes Sungrow solar inverters?

Chinese Powerhouse: Sungrow is a China-based company and one of the world's largest solar inverter manufacturers. Publicly Traded: Founded in 1997, Sungrow (SZSE: 300274) is a leading renewable energy brand with a strong R&D focus. Full-Spectrum Solutions: From residential inverters to utility-scale storage, Sungrow covers all solar needs.

How many power electronic converters does Sungrow have?

As of June 2025, Sungrow has installed 870 GW of power electronic converters worldwide. The Company is recognized as the world's most bankable PV inverter and energy storage company (BloombergNEF). Its innovations power clean energy projects across the globe, supported by a network of 520 service outlets guaranteeing excellent customer experience.

Does Sungrow offer a low-voltage energy storage system?

In addition, Sungrow introduced an all-new low-voltage residential energy storage system to its product portfolio. The SH5/6/8/10RL hybrid inverter series (up to 10kW), paired with the SBL060 battery (6kWh per unit), offers exceptional scalability, safety, and flexibility for residential applications.

What does Sungrow do?

At Sungrow, we are committed to promoting the development and application of clean energy across all major energy technology sectors, including solar, wind, storage, electrification, and hydrogen. Our goal is to increase the adoption of clean energy and drive more creative, innovative ways to use clean energy.
