
Terrace solar panel prices

How many solar panels are on the Terrace site?

The Terrace site at Northern Solar Project has 8 roof-top solar panels. These panels, which are thin-film and a newer technology that works better in low-light conditions, were installed by community members during a workshop in the fall of 2013. They are grid-tie, meaning that any excess electricity is fed into the grid and sold to BC Hydro.

How much does the Terrace cost?

The Terrace is a beautiful development, 99 years leasehold started from 30 October 2013. The actual date of TOP was in 2017/05. It was developed by the well-known property developer, Kheng Leong Co (Pte) Ltd. They won the bid for the land on 2 August 2013, and it works out to about \$671 per square foot per plot ratio.

How much does a solar panel installation cost?

Installation charges typically range from 20% to 30% of the total system price. Professional installers follow local restrictions and optimize panel placement for best efficiency. The small size of the excellent solar panel system makes installation easier, lowering labor time and associated expenses.
