
Waterproof Folding Container for Highways

Are portable storage containers waterproof?

Our portable storage containers are 100% weather resistant. The roofs are corrugated to allow for optimal durability and water runoff, and the floors are coated and sealed to provide a waterproof surface.

What is a foldable steel storage container?

Foldable steel storage containers come in three lengths, each with a standard width of 2.1m. The smallest size is compact enough to be used as a garden shed, even in a small back garden in the most restricted of spaces. These products are also modular, so you can expand on storage space at any time by joining three units together.

What is a portable storage container?

A portable storage container is a durable, weather-resistant, and secure container often used for moving, shipping, and storage purposes. These containers are typically made from materials like steel.

Are portable storage containers weather resistant?

MakDaddy's portable storage containers are 100% weather resistant. The roofs are corrugated to allow for optimal durability and water runoff, and the floors are coated for added protection.
