
Waterproof Folding Containers for Steel Plants

What is a foldable steel storage container?

Foldable steel storage containers come in three lengths, each with a standard width of 2.1m. The smallest size is compact enough to be used as a garden shed, even in a small back garden in the most restricted of spaces. These products are also modular, so you can expand on storage space at any time by joining three units together.

Are foldable steel storage containers safe?

As well as being highly flexible, foldable steel storage containers are also very secure. They are made from galvanised steel which means they are theft and vandal proof.

What material is the foldable water container made from?

This foldable water container is made from food-grade BPA-free LDPE plastic, which allows it to be both durable and collapsible. It can carry 5.3 gallons (20L) of water and has a one-piece design with no seams, which are often the source of leaks in other containers.

What is a double steel storage container?

Double steel doors with dual locks are a deterrent to unauthorised access, and the steel structure of the container body makes them wind and waterproof and very resilient to damage. For more detailed technical details on foldable steel storage containers see our [Containerstore information page](#).
