
Waterproof mobile energy storage container for oil refineries

What types of energy storage systems does Jinko power offer?

Depending on application scenario, Jinko Power provides all types of customers with tailored energy storage system solutions, including power energy storage system integration solutions, industrial and commercial energy storage system integration solutions, and household energy storage systems.

What is a crude & HFO storage tank?

The Crude & HFO Storage Tank from TEC Container Solutions provides high-capacity, insulated static storage for crude oil, heavy fuel oils (HFO), and other high-viscosity products. Built with a double-walled, fully bonded design, it ensures environmental protection while maintaining stable product temperatures even in harsh conditions.

What is a mobile storage container used for?

water and liquid waste. The mobile storage container can be used for the (temporary) storage of liquids and hazardous substances such as oils, chemicals, acids, cooling water, waste water and liquid waste.

Why should you choose TEC's crude oil & HFO storage tank?

With optional thermal fluid, steam, or direct fire heating integration, and modular ISO-framed mobility, it delivers a flexible, compliant solution for refineries, terminals, blending facilities, and remote energy sites worldwide. Why Choose TEC's Crude Oil & HFO Storage Tank? Struggling with safe storage for heavy, viscous products?
