
Wellington Centralized solar container energy storage system

What makes our Wellington storage facility special?

Our Wellington storage facility is extra special as it has multiple access points to the storage units and undercover loading areas to protect you from the Wellington weather.

Does CentrePort have a battery energy storage system?

CentrePort is taking another step on its energy journey with an onsite battery energy storage system (BESS) which will improve resilience and enhance the potential for future emission reductions.

How has CentrePort adapted to its energy transition?

CentrePort has already made great strides with its energy transition in a relatively short period of time, with its 100% electric port trucks and associated battery management system, onsite renewable energy generation, and roll out of LED lighting across the container terminal.
