Choose inverter.com to buy your solar inverter benefit from the superior quality, best price and flexible delivery.

Which company makes the best solar inverter?

According to IHS Markit, Growatt is one of the world's top 10 inverter brands and is the world's No.1 residential inverter supplier. It also ranks among the world's top 5 suppliers of string inverters for C&I solar projects.

How much does a solar inverter cost?

For an average-sized installation, inverters typically range between \$1000 and \$1500. That cost can go up quickly though as the installation gets bigger. Each year, the National Renewable Energy Lab performs a cost benchmark of the solar industry, looking at average installation costs, inverter and panel costs, and a host of other related topics.

What is a solar inverter?

A solar inverter or photovoltaic (PV) inverter is a type of power inverter that converts the variable direct current (DC) output of a photovoltaic solar panel into a utility frequency alternating current (AC) that can be fed into a commercial electrical grid or used by a local, off-grid electrical network.
